

How much can you save with the right check printing software?

B2B payments account for \$550 billion dollars every year in the US alone. So why aren't businesses saving everywhere they can? Using blank check stock rather than preprinted check stock is a great place to start.

LET'S START WITH THE BASICS . . .

VS

\$328 per 1,000 checks

\$65 per 1,000 checks

70% savings

PROCESSING COSTS MATTER, TOO . . .

Preprinted forms* use a new form for every unique account

Preprinted Deposit Slips		Blank Deposit Slips
\$318 per 1,000 checks		\$70 per 1,000 checks
Preprinted Invoice Paper		Blank Invoice Paper
\$152 per 1,000 checks	VS	\$70 per 1,000 checks
Total Cost		Total Cost
\$470 per 1,000 checks		\$140 per 1,000 checks

70% savings

DON'T RISK YOUR COMPANY'S MONEY

51%

of B2B Payments are Made by Check

\$280

BLLION PAID with Checks Every Year

77%

OF COMPANIES subjected to payments fraud in 2014 were victims of check fraud

The average small business lost

\$20,300

to check fraud in 2013

PROTECTION IS THE KEY

Printing on blank stock helps prevent check fraud

Blank Stock prevents:

check fraud because blank check stock has **no preprinted sensitive accounts numbers & no preprinted banking information**

CONVENIENCE IS PRICELESS
